The information allows teachers and school heads to understand a students' performance better. This report reviews ASLO in three South Asian countries---Bangladesh, Nepal, and Sri Lanka---with a focus on public examinations, national assessment, school-based assessment, and classroom assessment practiced in these countries.

Seeding Buddhism with Multiculturalism - D. Mitra Barua 2019-05-13

Immigrants often face considerable challenges when it comes to preserving their cultural and religious teachings. D. Mitra Barua argues that the Sri Lankan Buddhist community in Toronto has maintained its coherence and integrity not despite but because of the need for cultural adaptations. Drawing on survey data, over fifty in-depth interviews with temple monks, educators, parents, and children, and fieldwork conducted in Toronto and Colombo, Sri Lanka, *Seeding Buddhism with Multiculturalism* examines how a religious tradition is transmitted from one generation to the next in a new cultural setting, and what happens during that process of transmission. Barua demonstrates that Buddhists

have passed on Buddhist beliefs, attitudes, and practices to their Canadian-born youth, who in turn have constructed their own distinct Buddhist identity, influenced by the individualistic, egalitarian, and secular cultural ambience in Toronto. Through creative fieldwork and translocal analysis - taking into account migrants' geographical, cultural, and familial ties to multiple locales - this book further explains that pre-migration experiences often shape and determine the success or failure of intergenerational transmission. An ethnographic religious study with an uncommon depth of perspective, *Seeding Buddhism with Multiculturalism* shows that first- and second-generation Sri Lankan Buddhists in Toronto are successfully practising Theravāda Buddhism within a Canadian context.

The Phantom Tollbooth - Norton Juster 1988-10-12

With almost 5 million copies sold 60 years after its original publication, generations of readers have now journeyed with Milo to the Lands Beyond in this beloved classic. Enriched by Jules Feiffer's splendid illustrations, the wit, wisdom, and wordplay of Norton Juster's offbeat fantasy are as beguiling as ever. "Comes up bright and new every time I read it . . . it will continue to charm and delight for a very long time yet. And teach us some wisdom, too." --Phillip Pullman For Milo, everything's a bore. When a tollbooth mysteriously appears in his room, he drives through only because he's got nothing better to do. But on the other side, things seem different. Milo visits the Island of Conclusions (you get there by jumping), learns about time from a ticking watchdog named Tock, and even embarks on a quest to rescue Rhyme and Reason. Somewhere along the way, Milo realizes something astonishing. Life is far from dull. In fact, it's exciting beyond his wildest dreams!

Buddhist Approach to Harmonious Families, Healthcare and Sustainable Societies - Thich Duc Thien 2019-04-16

EDITORS' INTRODUCTION BACKGROUND There have been major changes in world today and that the term Global Leadership and Sustainable Development is no longer taken for granted as a point of reference for understanding the contemporary chaotic situation. These disruptive changes mean that it is now arguable as to whether we still live in a world of justice, equality, peace and prosperity. The nature of these changes and the concepts of the Buddhist approach are central to the whole project of this book. In this light, we place great emphasis on understanding Buddhist teaching in dealing with this matter. We argue

that any investigation of the changing character and context of the present time, needs to take account of the Buddhist philosophy. We focus on providing a thorough and critical understanding of change taking place as a starting point of discussion. In doing so, we attempt to clarify the nature of the Buddhist approach. It may be more productively understood as the result of a complex contested and fragile set of arrangements, which in this book we term as "approach". We do not imply that the frameworks based on the Buddhist teachings are fully fixed and agreed by everybody. Rather it would refer to a set of arrangements that need to be further discussed. Given the above, this volume collects together papers presented at the international workshop on Buddhist Approach to Harmonious Families, Healthcare and Sustainable Societies which took place on 13 May 2019 at International Conference Center Tam Chuc, Ha Nam, Vietnam on the occasion of THE 16TH UNITED NATIONS DAY OF VESAK CELEBRATIONS 2019. The participants in this workshop were not representative of the mainstream thinking or conventional wisdom of this field, although this volume reflects this richness and diversity. Treating the Buddha teachings as a basic theoretical reconstruction, we examine the relationships between the societies and Buddhist responsibilities. We combine analyses of the conflicts, trends and dynamics affecting future development with more focused studies on a range of policy areas: migration, education, leadership, climate change, etc... Two of our most crucial presumptions are that making Buddhism great again at the time of disruption is our first and foremost duty and the Buddhist responsibility can contribute to creating a new foundation for Global Leadership and Sustainable Development.

Globalisation, Public Opinion and the State - Takashi Inoguchi 2007-12-20

This is first integrated book-length account of citizen responses to the new global order. Based on a comprehensive survey, administered at the end of 2000, in nine European and nine Asian countries, this book demonstrates the diverse responses to globalization, within, and between, two of the world's major - and most globally integrated - regions. Globalization, Public Opinion and the State is a pioneering empirical study, drawing on 18,000 interviews across these 18 European and Asian countries supported by the Japanese Ministry of Education. The Asian-Europe Survey is one of the largest of its kind ever conducted, and provides the book with a wealth of novel data on public opinion and social attitudes that identify the linkages between national/regional policy responses and the political and policy orientations of the publics affected. The book uses theoretical insights to situate these public responses and reactions to globalization; and it addresses one question in particular: do nation states matter in how citizens come to view regional and global engagement? Rather than offering another theory about globalization, this book presents much-needed empirical findings that help us decide between arguments about the public impact of globalization cross-nationally. This book breaks new ground as there no other comprehensive study in this field.
