Demanding Equality - Joan Sangster 2021-06-15

For one hundred years women fashioned different dreams of equality, autonomy, and dignity; yet what is Canadian feminism? In *Demanding Equality*, Joan Sangster explores feminist thought and organizing from mid-nineteenth-century, Enlightenment-inspired writing to the multi-issue movement of the 1980s. She broadens our definition of feminism, and - recognizing that its political, cultural, and

social dimensions are entangled - builds a picture of a heterogeneous movement often characterized by fierce internal debates. This comprehensive rear-view look at feminism in all its political guises encourages a wider public conversation about what Canadian feminism has been, is, and should be.

1-2-3 Magic - Thomas W. Phelan 2008-12-29
Designed to help parents to take charge of their home, offers tips on how to recognize six types of testing and manipulating behavior and how to constructively handle misbehavior at home and in public.

Earth First! - Martha F. Lee 1995-11-01
In the summer of 1980, Dave Foreman, along with four conservationist colleagues, founded the millenarian movement Earth First!. A provocative counterculture that ultimately hoped for the fall of industrial civilization, the movement emerged in response to rapid commercial development of the American wilderness. "The earth should come first" was a

doctrine that championed both biocentrism (an emphasis on maintaining the earth's full complement of species) and biocentric equality (the belief that all species are equal). Martha Lee was successful in gaining extraordinary access to information about the movement, as well as interviews with its members. While following Earth First's development and methods, she illustrates the inherent instability and the dangers associated with all millenarian movements. This book will be of interest to environmentalists and those interested in political science and sociology.

Child Care Handbook - 1980

The Asian American Movement - William Wei 1993-10-06

Active for more than two decades, the Asian American movement began a middle-class

reform effort to achieve racial equality, social justice, and political empowerment. In this first history and in-depth analysis of the Movement, William Wei traces to the late 1960s, the genesis of an Asian American identity, culture, and activism. Wei analyzes the Asian American women's movement, the alternative press, Asian American involvement in electoral politics. Interviews with many key participants in the Movement and photographs of Asian American demonstrations and events enliven this portrayal of the Movement's development, breadth, and conflicts.

Growing Up in Child Care - Ben Mardell 2002
Combining compelling interviews and photos with his own research at Harvard and classroom experience, Ben has produced a book that is at once a scholarly study and one of the most visually and verbally eloquent books available about the education of young children.

No Bad Kids: Toddler Discipline Without Shame - Janet Lansbury 2013-12-31

Janet Lansbury is unique among parenting experts. As a RIE teacher and student of pioneering child specialist Magda Gerber, her advice is not based solely on formal studies and the research of others, but also on her twenty years of hands-on experience guiding hundreds of parents and their toddlers. "No Bad Kids" is a collection of Janet's most popular and widely read articles pertaining to common toddler behaviors and how respectful parenting practices can be applied to benefit both parents and children. It covers such common topics as punishment, cooperation, boundaries, testing, tantrums, hitting, and more. "No Bad Kids" provides a practical, indispensable tool for parents who are anticipating or experiencing those critical years when toddlers are developmentally obliged to test the limits of our patience and love. Armed with knowledge and a clearer sense of the world through our children's eyes, this period of uncertainty can afford a myriad of opportunities to forge unbreakable

bonds of trust and respect.

Teach Smarter - Vanessa J. Levin 2021-05-07
Discover new, practical methods for teaching literacy skills in your early childhood classroom. Has teaching early literacy skills become a stumbling block to getting your preschool students kindergarten ready? Break out of the tired “letter of the week” routine and learn how to transform your lessons with fun and effective techniques. Teach Smarter: Literacy Strategies for Early Childhood Teachers will equip teachers to infuse every aspect of their teaching with exciting hands-on literacy teaching methods that engage students and help them build authentic connections with books, so that 100% of their students will have a strong literacy foundation and will be fully prepared for success in kindergarten and beyond. Respected author Vanessa Levin, veteran early childhood educator and author of the “Pre-K Pages” blog, breaks down the research and translates it into realistic, actionable steps you can take to

improve your teaching. Features specific examples of teaching techniques and activities that engage students in hands-on, experiential learning during circle time, centers, and small groups. Offers a simple, four-step system for teaching literacy skills, based on the foundational principles of early literacy teaching. Demonstrates how to build your confidence in your ability to get 100% of your students ready for kindergarten, long before the end of the school year. Understand the problems with traditional literacy teaching and identify gaps in your current teaching practice with this valuable resource.

Alabama Standards for Early Learning and Development - Alabama Department of Early

Childhood Education 2020-09
The 2020 edition of the Alabama Standards for Early Learning and Development (ASELD) has been developed to support all professionals who interact with young children, birth to age 5. The Standards have been aligned with both national

and state program standards and program requirements so that adults who work directly with children in infant-toddler or preschool classrooms, Head Start and Early Head Start programs, child care facilities, home visiting programs, or special education settings will be able to use the document to guide their interactions and instructional practices. Instructors in higher education, high school and career and technical programs are encouraged to introduce pre-service students to the standards through their coursework. Professional development specialists and technical assistance specialists who reference the standards within their training and coaching empower professionals' understanding and use of the ASELDs to cultivate high quality early learning programs. Professionals who write special education plans can use them to specify children's goals. In short, the ASELDs offer one single set of expectations for Alabama's young children that extend across all program

types. The ASELDs follow a unique format that includes learning progressions or indicators for children's learning, birth to age 5. Each double page provides a sequence of development for specific strands within the ASELDs' domains. The ASELDs are organized into 4 sections with 8 domains of learning for children and a 9th domain that describes the ways in which professionals and families work together to support children's learning. The eight children's domains portray a comprehensive view of children's learning and are further supplemented through the additional domain of Family and Community Engagement. Each of the eight learning domain segments in the ASELDs has 4 key parts: 1) a domain introductory page; 2) the learning progressions, birth to 5 years or 60 months; 3) recommendations for adaptations and accommodations to support children with unique needs; and 4) foundational practices for professionals. These pages work together to guide all professionals, regardless of the early

learning setting, in the design and use of age, culturally, and linguistically appropriate learning standards for all young children, birth to age 5.

Understanding the Danish Forest School

Approach - Jane Williams-Siegfredsen

2017-03-01

This fully revised edition of *Understanding the Danish Forest School Approach* is a much needed source of information for those wishing to extend and consolidate their understanding of the Danish Forest School Approach. It enables analysis of the essential elements of this particular approach to early childhood teaching and the relationship it holds with quality early years practice. Describing the key principles of the Forest School Approach to early childhood, and heavily supported with practical examples and case studies, each chapter ends with highlighted key points, followed by reflections on practice to aid discussion and reflection on own practice. Including a new chapter on the curriculum, this text explores all aspects of the

approach including: The geographical, historical, social and cultural influences that have shaped the philosophy and pedagogy of the early years setting in Denmark. The people and theories that have influenced and supported the practices of using the outdoors with children. An analysis of the learning environments, their risks and challenges and what a learning environment is made up of. The Danish early years curriculum; the areas of learning and the way pedagogues facilitate the learning processes. Parental, political and research perspectives on the approach and the sustainability of its future. *Understanding the Danish Forest School Approach* highlights the key ideas that practitioners should consider when reviewing and reflecting on their own practice, and outlines the national appraisals and evaluations of the curriculum. Providing students and practitioners with key information about a major pedagogical influence on early years practice, this is a vital text for students, early years and

childcare practitioners, teachers, early years professionals, children's centre professionals, lecturers, advisory teachers and setting managers.

Young Children and Racial Justice - Jane Lane 2008-06-09

Young Children and Racial Justice provides a framework for good practice in racial equality for everyone working in the early years sector. It provides an accessible overview of racism, and explores how children learn their attitudes towards people who are different to themselves. Covering key areas such as prejudice, discrimination and Government policy, the book addresses current and contentious issues such as terminology, terrorism, community cohesion, skin colour, living in mainly white areas, name-calling, unlearning racism and dealing with racist incidents. Designed for use in professional development, with case studies, references and accessible articles for students, this book gives practitioners the tools and knowledge to

implement race equality policies and action plans.

Extending Thought in Young Children - Chris Athey 2007-03-08

'Chris Athey has made a major contribution to our understanding of how young children think and how educators and parents can best support their learning. This book is, without doubt, a most important text for all who are concerned to maximise the potential of early childhood education to develop effective ways of working with young children. The book explores children's schematic development and offers ways of teaching which are closely matched to children's actions, speech and graphic representations. This second edition of Extending Thought builds on the scholarly approach of the first and provides readers with clear explanation of relevant research alongside rich observations of children. It is essential reading for all who seek to provide the very best of learning opportunities for young children by

bring parents, professionals and informed pedagogy together in a thoughtful and informed partnership of learning. Extending Thought is a major building block for many of us who study young children's capacity to think and learn' - Dr Cathy Nutbrown, Reader in Education, University of Sheffield In this fully revised version of Chris Athey's classic text, the author builds on her original internationally renowned research with new illustrations of 'continuity' in children's thinking from early to primary education. Drawing on her extensive experience and research evidence, she explains how teachers of young children can advance professionally towards a greater knowledge of young children's thinking and learning. The book covers: o 'forms of thought' used by young children o assimilation of curriculum content o pedagogy o parental participation o the politics of early education This book is an essential read for students and teachers in early years education. Chris Athey M Ed, was Principal

Lecturer in Education at the Roehampton Institute of Higher Education (RIHE). Funded by a Leverhulme Research Fellowship, she directed the Froebel Early Education Project from 1973 to 1978. She has taught all ages of primary-school children in State and private schools. She has considerable experience of initial teacher training and INSET

The Snowy Nap - Jan Brett 2018-10-16
In this instant winter classic, Jan Brett's Hedgehog tries to stay awake so he doesn't miss out on all the snowy fun his friends are having. A chill is in the air, and as Hedgehog trundles around the farm all his friends tell him of the winter-time fun he will miss as he hibernates: Icicles decorating the chicken coop! Lisa making snowmen! The pond turned to slippery ice! It sounds so amazing that Hedgehog decides to stay awake instead of going to his burrow. But then, a snowstorm starts. Luckily, Lisa finds him and brings him to her home, so Hedgehog gets to see the wonders of winter from inside the cozy house. From the creator of winter classics like *The Mitten*, *The Animals' Santa*, and *The Three Snow Bears* comes another seasonal adventure that is sure to warm the heart.

Serials in the British Library - 1999

Bear and Wolf - Daniel Salmieri 2019-02-18

Bear and Wolf become unlikely companions one winter's evening when they discover each other out walking in the falling snow.

The Royal Treatment - Barbara Royal
2013-06-25

The Magical World of Fairies - RH Disney
2007-09

Describes the fairies of Pixie Hollow, their Home Tree, and their amusements, in a volume that invites young readers to decorate the pages with reusable stickers according to instructions in the text.

Elevating Child Care: A Guide to Respectful

Parenting - Janet Lansbury 2014-05-01

Janet Lansbury's advice on respectful parenting is quoted and shared by millions of readers worldwide. Inspired by the pioneering parenting philosophy of her friend and mentor, Magda Gerber, Janet's influential voice encourages parents and child care professionals to perceive babies as unique, capable human beings with natural abilities to learn without being taught; to develop motor and cognitive skills; communicate; face age appropriate struggles; initiate and direct independent play for extended periods; and much more. Once we are able to view our children in this light, even the most common daily parenting experiences become stimulating opportunities to learn, discover, and to connect with our child. "Elevating Child Care" is a collection of 30 popular and widely read articles from Janet's website that focus on some of the most common infant/toddler issues: eating, sleeping, diaper changes, communication, separation, focus and attention

span, creativity, boundaries, and more. Eschewing the quick-fix 'tips and tricks' of popular parenting culture, Janet's insightful philosophy lays the foundation for a closer, more fulfilling parent/child relationship, and children who grow up to be authentic, confident, successful adults.

Carl and the Meaning of Life - Deborah Freedman 2019-04-02

From the often Caldecott-buzzed Deborah Freedman, a sweet and funny story about finding your place in the world. Carl is an earthworm. He spends his days happily tunneling in the soil until a field mouse asks him a simple question that stops him short: "Why?" Carl's quest takes him on an adventure to meet all the animals of the forest, each of whom seems to know exactly what they were put on this earth to do, unlike the curious Carl. But it's not until the world around him has changed that Carl begins to realize everyone, no matter how small, makes a big difference just by being themselves.

Alberta's Daycare Controversy - Tom Langford 2011

Since the late 1950s, disputes over day care programs, policies, and funding have been a recurring feature of political life in the province of Alberta. *Alberta's Day Care Controversy* traces the development of day care policies and programs in Alberta, with particular emphasis on policy decisions and program initiatives that have provoked considerable debate and struggle among citizens. For most of Alberta's first fifty years as a province, day care was treated as a private rather than a public issue. Beginning in the late 1950s, however, debates about day care began to appear regularly in the public record. Langford brings to light the public controversies that arose during the last four decades of the twentieth century and the first decade of the new millennium, placing contemporary issues in historical context and anticipating the elements of future policy struggles.

1986

The New Basics - Dr. Michel Cohen, M.D.

2009-10-13

Dr. Michel Cohen, named by the New York Post as the hip, "must-have" pediatrician, has an important message for parents: Don't worry so much. In an easy-reference alphabetical format, *The New Basics* clearly lays out the concerns you may face as a parent and explains how to solve them -- without fuss, without stress, and without harming your child by using unnecessary medicines or interventions. With sensitivity and love, Dr. Michel describes proven techniques for keeping your children healthy and happy without driving yourself crazy. He will show you how to set positive habits for sleeping and eating and how to treat ailments early and effectively. You'll learn when antibiotics are helpful and when they can be harmful. If you're having trouble breast feeding, pumping, or bottle weaning, Dr. Michel has the

advice to set you back on track. If after several months your baby is still not sleeping through the night, *The New Basics* will provide you with tried-and-true methods to help ease this difficult transition for babies and parents. Dr. Michel recognizes that you're probably asking the same questions his own patients' parents frequently ask, so he includes a section called "Real Questions from Real Parents" throughout the book. You'll find important answers about treating asthma, head injuries, fevers, stomach bugs, colic, earaches, and other ailments. More than just a book on how to care for your child's physical well-being, *The New Basics* also covers such parenting challenges as biting, hitting, ADD, separation anxiety, how to prevent the terrible twos (and threes and fours ...), and preparing your child for a new sibling.

Working Mothers and the Child Care

Dilemma - Lisa Pasolli 2015-05-15

During the twentieth century, child care policy in British Columbia matured in the shadow of a

persistent political uneasiness with working motherhood. Charting the growth of the child care movement in this province, *Working Mothers and the Child Care Dilemma* examines how ideas about motherhood, paid work, and social welfare have influenced universal child care discussions and consistently pushed access to child care to the margins of BC's social policy agenda. Lisa Pasolli also celebrates those who have lobbied for child care as part of women's rights as workers, parents, and citizens.

ABC of Nutrition - A. Stewart Truswell
2010-07-15

This well established ABC has been updated with new charts, illustrations and guidelines on aspects of nutrition which affect heart disease, blood pressure, chronic diseases such as diabetes and some types of cancer. The book also contains the most current nutritional recommendations for pregnancy and infant feeding as well as advice for children and adults young and old. With chapters covering

nutritional deficiencies in both developing and affluent countries as well as eating disorders and obesity, this latest edition has worldwide relevance.

Never Enough - Neil Gilbert 2016-11-11

It is said that greed fuels capitalism and socialism feeds on envy. But what happens in a stable society when a successful economy generates material progress for one population sector, while simultaneously creating income inequality and poverty for another sector? While this has long been a classic debate for economists, Neil Gilbert, a social welfare theorist, offers a new take. In this landmark work, Gilbert addresses the long-standing tensions between capitalism and the progressive spirit and challenges the contemporary progressive outlook on the failures of capitalism. In doing this, *Never Enough* analyzes the empirical evidence for conventional claims about the real level of poverty, the presumed causes and consequences of inequality, the meaning

and underlying dynamics of social mobility, and the necessity for more social welfare spending and universal benefits. The book's careful analysis suggests that it is time to resist the material definition of progress that stands so high on the current agenda and envision alternative ways for our government to advance the "good society." Insatiable consumption and the commodification of everyday life has dominated the last half-century, and is encouraged by modern capitalism because it feeds the economy and is also used as a measure of individual success. But Gilbert argues that it is perhaps no longer the best way to stimulate the economy. *Never Enough* also challenges the prevailing assumptions about the decline of middle-class prosperity, opportunity and material well-being in the United States and in other post-industrial nations. In a careful reading of the evidence and a critical analysis of its implications, Gilbert demonstrates the extent to which the customary progressive claims about

the severity of poverty, inequality, social mobility and the benefits of universalism not only distort the empirical reality of modern life in an era of abundance, but confounds efforts to help those most in need.

Managing Chronic Health Needs in Child Care and Schools - American Academy of Pediatrics (AAP) 2018-08

This fully revised and updated resource helps teachers and caregivers address the challenges of caring for children with chronic health conditions and special health care needs in child care and school settings. The health issues covered include chronic illnesses, acute situations, and selected developmental and behavioral problems, with a special emphasis on children with special health care needs. More than 50 quick reference sheets on specific conditions provide teachers and caregivers with guidance on how to help at a glance. New quick reference sheets include Childhood Obesity, Eczema, Fetal Alcohol Spectrum Disorder, Food

Allergies, Gastroesophageal Reflux Disease, and more. The guide addresses topics with universal relevancy such as Care Plan development and implementation, medication administration, emergency planning, and handling symptoms that develop while on-site. Also included are ready-to-use sample forms, letters, and Care Plans, for easy implementation.

Reclaiming Our Students - Hannah Beach

2020-04-14

Fact: Children are more anxious, aggressive, and shut down than ever. br> Faced with this

epidemic of emotional health crises and behavioral problems, teachers are asking themselves what went wrong. Why have we lost our students? More importantly: how can we get them back? Hannah Beach, a celebrated educator and specialist in the field of emotional health, and Tamara Neufeld Strijack, Clinical Counsellor and Academic Dean of the acclaimed Neufeld Institute, provide a thoughtful guide to restoring the student-teacher relationship and creating the conditions for change. *Reclaiming Our Students* arms teachers with strategies to reassert their leadership role and build emotional safety in the classroom. The result: students can get back to learning, and teachers can get back to teaching You'll learn: - How to build, feed, and protect the student-teacher relationship - Why children are anxious or bossy, aggressive or checked out, and what teachers can do to address these behavioral issues at their root - How you can help students and classes shift their identity as the "problem

student" or "bad class" - Experiential activities for students of all ages that preserve and restore emotional health and well-being Plus, you'll find special considerations and information for parents, principals, counsellors, and home educators for building safety and support in the learning environment. Combining Hannah's groundbreaking experiential approach to

creating emotional health and community in the classroom with the Neufeld Institute's insightful approach to building relationships and making sense of children, Reclaiming Our Students is required reading for teachers who not only want to understand and overcome daily challenges, but also re-connect to their calling as educators.
